

MSS® -Disinfect Alco

Alcohol Based Equipment and Surface Disinfectant

Features

It is an alcohol-based surface disinfectant used in the food industry. Disinfect Alco is an alcohol-based disinfectant suitable for use on alcohol-resistant surfaces. It kills bacteria that may be encountered in the food industry in a short time and has an excellent wetting effect. Disinfect Alco is especially suitable for surfaces that are sensitive to corrosion and are not suitable for treatment with aqueous solutions. Disinfect Alco should not be used on large surfaces. It is only for disinfection of small surfaces and equipment

Flash Point: 20 °C

Physical Properties: Colorless liquid **Density:** 0.86 g/cm³ (at 20 °C)

Usage and Amount

Disinfect Alco is used by spraying directly on the cleaned surface without dilution. The distance to the surface to be disinfected during spraying should be 30 cm. The recommended usage amount is 40–50 ml/m². Disinfect Alco should be stored in its original packaging in a cool place against the risk of fire and explosion. It should not be sprayed on a naked flame. It should not be applied on materials that are not resistant to alcohol. Before using electrical appliances in a disinfected area, the product should be allowed to dry.

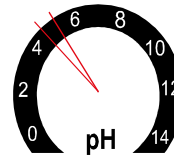

Storage

Store in a cool and dry environment. Do not stack more than three canisters on top of each other. Shelf life is three years from the Production Date.

Safety Symbol

Food Hygiene

R11: Highly flammable.
R36/37/38: May irritate eyes, respiratory tract and skin.
