

MSS® -Disinfect Oxy

Oxygen Based Liquid Disinfectant

Features

Active oxygen based liquid, slightly acidic cleaning auxiliary agent. Disinfect Oxy is an active oxygen based product used for special cleaning and containing anti-foam active agents. Disinfect Oxy easily cleans dirt that is very difficult to remove with an alkaline cleaner by perfectly oxidatively breaking it down. It has an anti-foam effect. Disinfect Oxy has superior dirt removal power thanks to the special surface active agents it contains. It is suitable for steel, chrome-nickel steel, zinc coating and galvanization. It is suitable for all oxidation-resistant plastics. It is suitable for oxidation-resistant seal materials. It is not suitable for aluminum with alkaline solutions.

Physical Properties: It is in colorless white liquid form. **Density:** $1.1 \pm 0.05 \text{ g/cm}^3$

Usage and Amount

Disinfect Oxy is added to the alkaline solution when starting cleaning. For guaranteed and ideal cleaning, Disinfect Oxy should be added at certain intervals throughout the cleaning operation. This is because heavy dirt is removed by the effect of Disinfect Oxy in alkaline solution, and more is consumed compared to the alkaline substance in the solution. Alkaline Solution: 2% Cip Alkali P, Cip Alkali Effective.

Concentration: Disinfect Oxy concentration in alkaline solution is 0.5 - 2.0%.

Temperature: Operating temperature is 60-80 °C.

Analysis Method: Easy titration is not possible.

Attention: Since oxygen release will increase the pressure of the environment, Disinfect Oxy should not be used in completely closed systems.

Storage

Store in a cool and dry environment. Do not put more than three canisters on top of each other. Shelf life is three years from the Production Date.

Safety Symbol

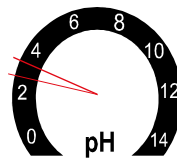

Food Hygiene

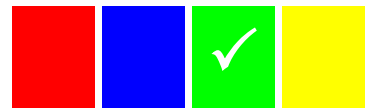

ISO 9001 : 2000
ISO 14001 : 2004
ISO 22000
HACCP / TS 13001

Sağlık Bakanlığı onaylıdır
TSE (TSEK)
Standartlarına göre üretilmiştir.

CLEANING COLOR CODE

R5: May explode when heated.
R8: May cause fire in contact with flammable materials.
R20/21/22: Harmful by inhalation, in contact with skin and if swallowed.
R35: May cause severe burns.

Product Code: MSS62077

Consumption Quantity:

S1/2: Keep locked up and out of reach of children.
S24/25: Avoid skin and eye contact.
S36/37/39: Wear suitable protective clothing, gloves and eye/face protection.
S45: In case of accident or if you feel unwell, seek medical advice immediately

Packaging Type: 20 KG (22 KG)
