

# MSS®-MOP Sanitation Oxy-L

## Oxygen Bleach and Stain Remover Liquid Auxiliary Washing Agent

### Properties

It is an oxygen-based concentrated auxiliary washing agent used in the MOP SIL System. It is a product with excellent bleaching and disinfection power developed for the use of all kinds of textiles. It has been proven to be suitable in the test results performed in accredited laboratories. It does not damage the texture of the textile in the bleaching process used together with MSS Mop Sanitation ML. It is effective at any temperature. It is used with dosing systems. It is suitable for environmental health, it is quite economical.

**Composition:** Contains Active Oxygen components.

**Physical Properties:** Colorless, clear liquid

### Usage areas

The risk of contamination is important in institutions with high hygiene requirements such as hospitals, schools, kindergartens, nursing homes for the elderly. The MOP Delete system is an economical, ergonomic and fast system that such institutions can safely use. At the same time, suitable for large areas such as shopping malls, hotels, airports, pharmaceutical factories, food production areas etc.

### Usage and Amount

It is effective at any water temperature. It can be applied alone or in conjunction with MOP Sanitation ML.

**Amount of usage;** 1 ml per 1 liter of water.

The adjustment of the dosing pumps is made by the MSS Group Sales Technical Support Consultant and is checked periodically.

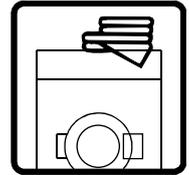

### Storage

Store in a cool and dry environment. Do not stack more than two drums on top of each other.
