

# MSS®-FERONIA Oxi-L

## Oxygen Bleach Liquid

### Characteristics

Feronia Oxi (Liquid) can be used in every type of industrial washing machines. Due to its active oxygen content, Feronia Oxi (Liquid) has a safe bleaching and stain removing characteristic. Its bleaching effect is optimum over 45°C. It can be used for bleaching, and removing heavy stains from colored and white fabrics made up of cotton, synthetic, cotton&synthetic mixture fibers confidently. Before using the product for colored laundry, test colorfastness on a small, hidden part of the fabric. It can be used with main washing products. It is effective against microorganisms, and provides hygiene. It is economical and environmentally friendly.

### Composition

Anionic and nonionic surfactants, phosphate, per borate, foam controller, corrosion preventive, anti graying, optical brightener, alkaline builder, carbonate, oxidation stabilizer, silicate, enzyme and perfume. Do not contain any filling materials.

**Physical Characteristics:** Bluish fluid powder.

### Directions and Dosage

It is effective over 45°C. It can be used in pre-washing process or used with main washing component like Feronia Simple or it can be used alone after washing process. For heavy stains pour Feronia Oxi (Liquid) on stains directly, wait 4-5 minutes, and then wash the laundry by washing machine. The stains will disappear.

Two methods of dosage are given:

1. According to weight of dry laundry : g/kg (float ratio 1/5)
2. According to washing water: g/l

Temperature of Washing Water (°C)	g/kg	g/l
≥45	10-30	2-6

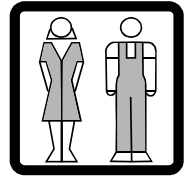

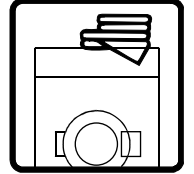

### Storage

Store it in a cool and dry place (keep it tightly closed). Do not stack more than two tight-head containers on top of each other.
